

Living In Holiness

Hendra Dedy M.L. (written when studying in Lempin-El)

Finishing my high school, I wanted to become a priest. I wanted to give my life to God. Then I studied at GPDI Theologia in Medan. Nevertheless, my life never changed. I fell into deep sins. I did many bad things, free sex and drank. Then I ran from my school and had no future.

I was a sinful man but God still gave me time to return back to Him. Hearing the word of God preached by Mr. Widjaja, I went to Malang and studied at Lempin-El.

God always gives me strength. He makes me holy and holier day by day through the teaching word. I often fell in sins before knowing the teaching word but after knowing it I can stand up in the truth. I give thanks to God because He is kind to me. He gives His grace to me in Lempin-El. I want to become His loyal servant to preach the word of God so that the children of God may become His Bridegroom. One thing that I must do is living in holiness to serve Him because I believe that God will use me if I live holily.
