

God Makes All Things Good

Nefrita Pramesthi (Bandung)

Peace greetings for all of us.

I am one of the internet radio/video hearers who have been following the service from the end of January 2009.

I want to bear witness about Shepherding Word which has become my life experience.

Some months ago, I was busy doing my college task with a client. The task took the time of serving to the Lord. I was doubtful at that time, whether I will serve the Lord or not because I considered committing service to the Lord via internet a little thing. Suddenly I remembered the Word of God that **we must prioritize the service to the Lord**. At last, I still committed Bible Study Service. Afterward, I did my task quickly but it could not be finished until the evening on the next day, the time to present it to the client. I was hopeless but the Word strengthened me again. Praise the Lord, I could make the presentation well and my client did not complain me much.

At the end of the semester, my mark was announced and I felt the miracle of God happened in my life. I got very good mark, as good as the mark of my friend who did the task until it was done well.

I feel God's power indeed in my life.

I hope my testimony can be blessing for all of us.

God blesses you.
