

Soldier of Jesus Christ

Sejanti

In my old life, I was a bad man. Nothing I did for the Lord even though I was the servant of God from my childhood.

My father always said to me "It is better if you become the soldier of Jesus Christ than the soldier of the world." I think it is good because during I worked in the world, I never found peace and quietness. That is why I have commitment to become the servant of God.

So I went to Malang to study in bible school Lempin-el Kristus Ajaib. I received the word of God and my life changed there. I was happy although I had no money. The love of God makes me happy, not money. All the time God provides me with all that are needed, especially with matters that are above. In Lempin-el I have been processed. Day by day my behaviors were changed from old life to new life although it was so hard to do. I fought for it and I am sure if Jesus Christ comes a second time I will meet Him to enter heavenly kingdom.
