Daniel Setyo Nugroho – student of Lempin-el Generation XXIX

For this time I am glad to tell you about a little of my experience before I came in Lempin-el, seeing that I can study in Lempin-el only because of the Lord's compassion.

Three years ago I was almost killed by my friend when I worked in East Malaysia. At the time my friend was so angry because of one problem with me. He drunk and almost killed me with his knife. When his knife touched my body, I was only quiet and prayed in my heart "Lord, help me." Actually, I was so afraid but I was still quiet and prayed to the Lord. In fact, God helped me on time and I am still living until now.

It is all because of the compassion of the Lord.
