God's miracle in the shepherding Mr. & Mrs. Winoto

I want to testify God's love to my wife and me.

A few years ago, I had a serious accident.

God's help to my wife and me was incredible, **God healed us**until now.

At the moment of the accident, doctor told us that <u>my life was only about 10%</u>. My family brought me to the hospital. <u>There were 12 fractures in my body</u>and until now, there are still implants in my bones, but I do not need to be operated to take the implants off because they are made of platinums.

The doctor said that my recovery might not be normal. I testify that **God's mercy is incredible**, my body is healed 99%; I can lift my arms perfectly, and I can do my activities like before.

My wife's jaw was fractured, but <u>it is normal now</u>. I give thanks to the pastor, so that until now, my family and I can be shepherded well in this place.

God blesses us.
